

### Big Spring Park - West

This detailed site plan for Big Spring Park - West illustrates various proposed and existing features. The park is bounded by Monroe St SW to the north, Church St NW to the east, and Williams Ave SE to the south. Key elements include:

- Proposed Features:** Multiple 10-foot and 15-foot sidewalks, walls with 2-foot cap-stone, concrete bench pads (4'x12'), and a new 15-foot sidewalk. A proposed pedestrian crossing is shown over a canal on the left.
- Existing Features:** Existing trees (circles with dots), light poles (stars), and a relocated light pole. A relocated light pole and bell tower are also indicated.
- Other Features:** A relocated light pole, a relocated light pole, and a relocated light pole. A relocated light pole and bell tower are also indicated.

The plan includes a legend in the top right corner defining symbols for proposed and existing trees, light poles, and sidewalks. A scale bar (0 to 150 feet) and a north arrow are also present. Colored arrows (blue, yellow, red) highlight specific areas of interest or change.

3- Red DOTS on church street three parking spots for snow cone truck and NOMA  
Discovery Room  
Trailer NO POWER  
NEEDED.
